WELCOME TO TAIWAN

Taiwan is a modern, free, democratic society whose people are hard-working, fun-loving, and friendly. While eagerly embracing the future, the people of Taiwan hold onto traditional values and ideals centered on the importance of family and education.

Traditional forms of writing, architecture, and art are part of everyday life. In Taiwan, the ancient and the modern, the traditional and the new are seamlessly woven together, creating a fascinating, dynamic society like no other in the world.

About Taiwan Education Center in India

The Program Office for Taiwan Education Center in India was established by National Tsing Hua University in 2011, with support from the Ministry of Education and Ministry of Foreign Affairs of Taiwan. Our mission is to strengthen the Indo-Taiwan academic partnership and promote Mandarin Chinese language and Taiwan higher education by setting up Taiwan Education Centers (TEC) in India. Today, there are already 10 TECs established in 10 local universities and colleges. Mandarin Chinese instructors have been appointed from Taiwan at each TEC to teach Mandarin Chinese courses and to hold various cultural activities. Over the past ten years, thousands of Indian students have learned Mandarin Chinese, which has become more and more influential in the world. Moreover, thousands of Indian talents have the opportunities to pursue their higher studies or career in Taiwan and then become the bridge between India and Taiwan.

Travel in Taiwan

There is beautiful scenery and hospitable people in all corners of Taiwan, from north to south. We are sure you will find something enjoyable on this island

<https://eng.taiwan.net.tw/>

Indian Community in Taiwan

Taiwan is home to at least 5,000 Indian citizens and some members of the diasporic community. The Indian community in Taiwan consists of businesspersons, restaurateurs, academicians, engineers, artists, students and think tankers. Most Indians in Taiwan hold white collar jobs and are considered among the highly educated in the expatriate community. Considered a closed-knit affluent society, Indians have made significant strides in Taiwan.

Getting a Certificate in Mandarin Chinese

The Test of Chinese as a Foreign Language (TOCFL) is a set of standardized language proficiency tests developed for non-native speakers of Chinese that has already served testtakers from more than 60 countries.

Many undergraduate and graduate programs in Taiwan require a TOCFL certificate for admission or for evaluation of an applicant's Chinese proficiency, and many international businesses that do business with Taiwan will take candidates' having TOCFL certificates into account when they are recruiting.

TOCFL is divided into four sub-tests: TOCFL Listening, TOCFL Reading, TOCFL Speaking, and TOCFL Writing. There are currently three proficiency bands: Band A, Band B, and Band C, and at each band a pass may be awarded at one of two levels making a total of six levels: Level 1 to Level 6. Test-takers can choose the band that best suits their Chinese language proficiency and learning background for each sub-test they want to take.

National Tsing Hua University

Apply

Scholarships

National Tsing Hua University (NTHU) is a leading comprehensive research university which is nearby Hsinchu Science Park (the Silicon Valley of Taiwan) and also surrounded by world-class national laboratories and industries, such as TSRI and TSMC.

Founded in 1911, NTHU has developed from an institute focusing on nuclear science and technology to an institute housing 12 colleges over the past century. The range of our colorful colleges includes science, engineering, nuclear science, humanities & social science, life science, electrical engineering & computer science, technology management, education, arts, politics and semiconductor.

NTHU provides a stimulating and nurturing environment where our faculty can offer quality teaching and conduct innovative research. Regarded as one of the top research universities, our research and development activities across the universities emphasize fundamental discoveries at the forefronts of basic sciences and exploration of breakthrough technologies with a high potential for applications.

Active performances above can be reflected from our publication in the world's preeminent journals, awarded international patents, and technology transfer cases. These also bring NTHU to nurture more outstanding alumni, including three Nobel Prize winners and one mathematics Woolf Prize winner which shows the glorious history and excellent academic environment of National Tsing Hua University.

Key Features About NTHU

- 2022 QS Ranking: No.180 In The World, No.34 In Asia, No.2 In Taiwan
- Listed TOP 100 On QS Ranking In Subjects: Linguistics(#65), Materials Science(#78), Physics & Astronomy(#82), Electrical & Electronic(#90), Mechanical & Aeronautical & Manufacturing(#98), Chemical(#100)
- Collaboration With 300+ Sister Universities
- Outstanding Alumni: 3 Nobel Prize Winners And 1 Mathematics Woolf Prize Winner

Degree Programs in NTHU

NTHU owns 12 colleges with the range from science, engineering, nuclear science, humanities & social science, life science, electrical engineering & computer science, technology management, education, arts, politics to semiconductor. NTHU also offer more than 147 degree programs for international students and 60% of them provide enough English courses for graduation.

Chaoyang University of Technology (CYUT) was established in 1994 and located in central Taiwan, Taichung city. The number of students is over 16,000, including around 1,100 international students represent over 30 countries.

Globalization is an inevitable phenomenon for us to re-consider the possibilities of individualism, free wills of labor ideology, and choices of personal life-style. In the era of Internet, the development of higher education in different countries deserve our scrupulous consideration of oceans of problems, such as how to promote and upgrade universities, how to create mutual communication among multi-cultural movements on the campus, how to incorporate professional cross-cultural outputs, and how to keep abreast of international tendency. After 28 years of endeavors, CYUT has grown up and has navigated toward a closer connection and link with internationalization.

》》》 Key Features About CYUT

The university is ranked Top 1000+ by the Times Higher Education World University Rankings and top 400+ by the Times Higher Education Young University Rankings, and ranked 501+ by the QS Asia University Rankings.

CYUT provides practical and quality courses with hands-on projects so students are eligible to practice what have learnt from classes. Most courses are career focused courses and students can apply for internship if needed. CYUT also offers variety of student mobility programs that allow students to engage with the international communities and enrich study experience at partner institutions worldwide.

》》》 Degree Programs in CYUT

The University has 6 colleges and 24 departments, offering 24 Bachelor's, 22 Master's programs, and 5 Doctoral programs at the College of Management, College of Informatics, College of Design, College of Science and Engineering, College of Humanities and Social Science, and College of Aviation, offering English-taught courses Business Administration, Information Management, Applied Chemistry, Civil and Construction Engineering and Architecture for International student at postgraduate levels.

National Dong Hwa University was founded in 1994, with the planning stage starting three years earlier; it is the best comprehensive university emphasizing academic research and teaching in Eastern Taiwan; and now has more than 10,000 students who are from diverse cultures and backgrounds.

Furthermore, the school consists of 7 colleges (1) College of Humanities and Social Sciences, (2) The College of Science and Engineering, (3) The College of Management, (4) Hua-Shih College of Education, (5) The College of Arts, (6) The College of Indigenous Studies, and (7) The College of Environmental Studies and Oceanology, which include 40 bachelor's programs, 41 master's programs, and 17 Ph.D. programs located in three campuses - The Hualien Shou-Feng Campus, The Hualien Meilun Campus, and The Pingtung Campus - that most of the colleges are at the Shou-Feng Campus where the majorities will accomplish their degree.

More importantly, 95% of the full-time faculty members hold Ph.D. degrees from prestigious universities in Taiwan and abroad, and there are more than 450 sister universities around the world, giving the best opportunities for the students to thrive and grow and achieve the goal of letting them see the world and be seen by studying at NDHU.

》》》 Key Features About NDHU

National Dong Hwa University ranks 17 among the universities in Taiwan. Although the ranking maybe not as comparable as some of the Taiwan's universities, taking the advantages of the location and view from the Eastern Taiwan, the school has been known as the Taiwanese version Hogwarts School of Witchcraft and Wizardry. That the location is not only surrounded by nature, within this enormous campus, green spaces, places for soccer, baseball, basketball, golf, badminton, volleyball, swimming etc are all granted for students to utilize and enjoy. Further, the on-campus accommodation is guaranteed, places for shopping, dining and transport are accessible and convenient.

Being the oldest university in Taiwan, established since 1895, University of Taipei (UT) with more than a hundred year of history in education has been contributing plentiful influential achievements in the development of the nation. Since its affirmation of reestablishment after August 2013, UT began a significant reform to endeavor for the excellent education with global view, continue to attract top Taiwanese students and international participants in line with our current mission to be a world-class research university. Many alumni from the legacy colleges and graduate schools have been empowered by our education and have become leaders in their area.

Four UT faculty members had been invited to be Minister of Cabinet Office of government of Taiwan, ROC and President of National Academy for Educational Research, representing UT's intellectual contribution to national policy of Taiwan. In 2013, UT received award from Springer for the highest viewed publication of the world in 2013, representing the strongest academic impact on international readership, leading ahead the rest of universities in Taiwan. Offering 53 bachelor, master, and doctoral degree programs in 4 colleges, UT values international diversity, which greatly enriches global view of all students and sets a connecting platform of international career development for future leaders. UT seeks to exert far-reaching knowledge impact to the world on fields including art, humanity, science, education, public affair, and Kinesiology.

UT is located in a vibrant international city with two campuses located in the political hub of Taiwan and Tien-Mu neighborhood adjacent to Yangmingshan National Park in Taipei. We are looking forward to strengthen innovation from research in all areas and to contribute more for human wellbeing.

Shih Hsin University (SHU) was established in 1956 and has nurtured numerous media talents for more than half a century. The mission of SHU is, "Combining academic knowledge with learning skills, morality with intelligence, as well as hands and minds working together." SHU has stayed true to this mission, nurturing both the integrity and intellectual capabilities of students, and integrating theoretical knowledge and practical skills in teaching. Starting from an institute of nurturing media talents, SHU has developed into an omnimedia higher education center and kept growing steadily into a comprehensive university in all aspects. SHU not only continues cultivating more media talents for the country, but also training professionals in all aspects.

》》》 Key Features About SHU

The LED Virtual Stage is a space equaling 470 square meters and is equipped entirely with Hollywood's latest technology. The initiative that Shih Hsin University is taking to invest in the future creates a glow of hope for the continued growth of the school despite the low birthrate, as well as proves that Shih Hsin can be a key player in boosting the domestic film industry through new technology and revising the process of production.

Cheng Shiu University

Apply

Scholarships

Located at the outskirts of metropolitan Kaohsiung, Taiwan, but close enough to the commercial center, Cheng Shiu University (CSU) is a place of learning, discovery and innovation to enable close collaboration among industry, government, and academia, and to allow students to maintain a firm grasp on the pulse of society, yet still distanced from the crowds and distractions of the big city. Founded in 1965, CSU has contributed to the establishment of a modern and technology Taiwan with areas of excellence across three colleges, Engineering, Life and Creativity, and Management, including 20 academic departments, along with 14 postgraduate programs and 7 industry-academia research and development centers. Our faculty, staff and students are committed to learning and exploration, to discovery and impact, by devotion to improving the wellbeing of people in the world through innovation and application of knowledge. On campus, the impressive array of buildings and comprehensive, cutting edge facilities offer students a complete learning environment.

» » » Key Features About CSU

Since founded, CSU's focus from the past till now has remained firmly on practical knowledge of teaching for preparing students for careers after graduation. And, this is because CSU has been, for a long term, devoting to integrating all the resources from universities, such as establishing a cross-domain and interuniversity collaborative team, to assist with the power of teamwork transforming the traditional industry in the southern Taiwan region. Our faculty has been working to collaborate with relevant manufacturers for years to carry out technology research and development on some popular technology application topics, assisting the industry in commodity development and technology upgrading. With a solid long-term industry-academia partnership, a win-win goal between the industry and CSU has been achieved.

National Taichung University of Education

Apply

Scholarships

National Taichung University of Education (NTCU) is a university with proud legacy. Founded in 1899 at the Confucian Temple in Changhwa and relocated to the current site in 1923, the university has prepared not only excellent teachers but also talents in diversified fields, such as court judges, lawyers entrepreneurs, politicians, and engineers.

NTCU is an excellent comprehensive university with four colleges. College of Education, College of Management, College of Science, and College of Humanities. The university pursues its mission through erudition and excellence in education and fosters the enrichment and fulfillment of the whole person. Its guiding principles have been “refinement, creativity, and new prospect.” It emphasizes on student-centered teaching encompassing scientific and humanistic education and advocates professionalism with critical thinking. Pursuing the goal as the local’s best, the nation’s leading, and the world’s famous university of education, NTCU expects to be excellent because of its students and anticipates its students to be proud of NTCU.

Key Features About NTCU

NTCU is a comprehensive public university, a model school of higher academy and in the future, the top in the region, the head in Taiwan and a distinguished liberal arts university in the nations. NTCU has 254 sister universities in overseas, 224 international students and three dual degrees with University of Indianapolis, Thompson Rivers University and Soai University. E-learning and bilingual teaching are main purposes in the future.

Degree Programs in NTCU

The NTCU has introduced its International Master of Business Administration (IMBA) program since 2014. This program is aimed to educate students with advanced business management knowledge.

Our faculty members are specialized in various business fields, and provide interactive, top-quality and diverse learning experiences. Remarkably, our IMBA program devotes to the fields of international business management, tourism management, cultural industry management, in addition to higher education management.

This program requires students to accomplish 35 credits. All the courses in this program are conducted in English. Admissions are eligible for Fall (Sep.-Jan.) or Spring (Feb.-Jun.) semester. Generally, the school provides scholarship and working opportunity in the campus.

Chia Nan University of Pharmacy and Science

Apply

Scholarships

Starting life with just 300 students as Chia Nan Junior College of Pharmacy, CNU was founded in 1966 by Mr. Chen Wang. We quickly achieved an excellent reputation for training pharmacists, and as we expanded into the fields of health promotion and management, our student population continued to grow, enabling us to develop into one of the three biggest institutions of technology in Taiwan. In 1996, we were upgraded by the Ministry of Education to become Chia Nan College of Pharmacy and Science, and in 2000 were formally accredited with full university status, becoming Chia Nan University of Pharmacy and Science. CNU is now a leading educator of professionals in the fields of pharmacy, health care and science, with approximately 12,000 students. More than 120,000 students have graduated from our programs, and are currently making their mark in a wide range of professions. Our alumni are highly sought after by industry, and are well known for their contribution to society.

Key Features About CNU

CNU is a school of possibilities and opportunities. It is known in Taiwan for its pharmacology and practical applied sciences. Not only is it the only school in Taiwan that passed the Taiwan-Japan International Joint Certification (IJAS) in 2019, but also the only private vocational school in Taiwan that has been selected as one of the top 2,000 in the world by the Center for World University Rankings (CWUR) for two consecutive years in 2019~2020.

In addition, Chia Nan University of Pharmacy and Science was also ranked among the top four universities in Taiwan by Foresight magazine in 2021 and 2022 respectively, and ranked first among the most loved university students by medical and health enterprises in the country. CNU actively promotes international academic exchanges, and has established sister schools with more than 250 internationally renowned universities, with a day department and a continuing education department, with four-year and two-year academic systems, respectively setting up 5 colleges, a total of 21 departments (including master's classes) and 1 bachelor's degree program. With the Academic excellence, beautiful campus, job-ready study and Alumni network, CNU will unlock your potential to a bright future.

Ming Chi University of Technology

Apply

Scholarships

In the 1960's while both the industrial and economic developments were taking off in Taiwan, there was a lack of mid-level professionals in the industries. In response to the developmental needs, Mr. Y. C. Wang and Mr. Y. Z. Wang, the founders of Formosa Plastics Group, donated the funds for the establishment of the University in December 1963 in order to strengthen the cultivation of talents.

The University is located on the hillside of Kueizi Village in Taishan District, New Taipei City and was originally named "Ming Chi Institute of Technology." The campus occupies an area of 62 hectares with vast green areas and beautiful yet tranquil sceneries. More than 200 years ago, during the reign of Emperor Chienlong in the Ching Dynasty, the "Ming Chi Academy," founded by a Tributary Scholar, Mr. Hu Cho-yu in Southern Fukien, was located in the vicinity of the University. At that time the Academy was a center of intellectual and cultural hub and was also the cultural origin of northern Taiwan. This university was named "Ming Chi" with an aim to encourage the faculty and the students to learn from the virtuous elders and to embrace heritage and vision as their own mission.

Why MCUT

Fo Guang University

Apply

Scholarships

Fo Guang University was founded by Venerable Master Hsing Yun, the founder of Fo Guang Shan. It is the first university in the Lanyang area, Yilan county, in Taiwan. It is situated on the mountain in Linmei village, Jiaosi township, in Yilan county. The campus is about 430 meters above sea level, with a breathtaking view of both the Lanyan Plain and Turtle Island in the Pacific Ocean. The campus is surrounded by the beauty of its exquisite natural setting, infusing it with spiritual energy and inspiration. Its classrooms are furnished in quaint simplicity. Small classes allow for a low of teacher/student ratio as enhancing good learning environment.

Currently there are six colleges: Humanities, Social Sciences, Management, Creativity and Technology, Lohas Industries, and Buddhist Studies. Fifteen departments are under these six colleges according to each of their subjects. In addition, the departments of Chinese Literature and Application and Buddhist Studies offer PhD degree programs.

》》》 Key Features About FGU

Fo Guang Shan University consortium. There are five universities founded by Fo Guang Shan share educational resources, and frequently engage in academic exchanges. Fo Guang University values students who are able to explore themselves and have a global vision. The University signs academic exchange agreements with fifty well-reputed universities around the world. Students are encouraged to participate in short-term academic exchanges, do overseas volunteer work, or study abroad. The University has signed a "2+2" program with the University of the West, in the United States, in which students who are enrolled at Fo Guang University spend two years on its main campus, and then two years at the University of the West in the U.S., following which they are granted diplomas by both universities.

National Taipei University of Education

Apply

Scholarships

The National Taipei University of Education (NTUE) began in 1895, 16 years before the Republic of China was founded, and was initially named "National Taipei Teachers College."

Following the retrocession of Taiwan from Japan in 1945, the Government renamed the "Taiwan Provincial Normal School" in December of that year. In 1961, the school's name changed again to "Taiwan Provincial Junior Teachers College" and then upgraded to "Taiwan Provincial Taipei Normal College" in 1987. In 1991, it was renamed to "National Taipei Teachers College" before the current final name of "National Taipei University of Education" in 2005.

NTUE continues to be the cradle of training elementary school teachers. We strive to be an excellent and innovative university specializing in teacher training and educational research.

Key Features About NTUE

NTUE specializes in teacher training, educational research, arts, music, sports, Chinese language teaching, and continuing education. With more than 127 years and solid relationships with more than 110 universities worldwide, it is constantly expanding international collaboration. It's proud to be one of Taiwan's most prestigious educational institutes.

Tzu Chi University

Apply

Scholarships

Tzu Chi University (TCU) is a human-centered university that promotes character education and global citizenship behavior from globalized perspectives.

Social and environmental sustainability - TCU educates students with knowledge and skills of social and environmental sustainability (e.g., respect for life, vegetarian meals, green lifestyle) for the earth.

Inclusive Learning Environment - Small-class settings encourage interactive discussions between faculty members and students and promote creativity and innovation. TCU has most of the faculty members with a Ph. D. Degree (86.59%). The ratio of faculty to students around 1:10 suggests quality of education.

Silent mentor humanistic practices - TCU provides professional and humanistic education with core values of "gratitude, respect, and love." Pioneering the practice of the "Silent Mentor Program" the university trains medical students' surgical skills through silent mentors (body donors). Students learn selfless giving on behalf of donors and become excellent physicians through this involvement since their altruistic spirits are cultivated.

Volunteer "moms and dads" - TCU provides social and emotional support for students through academic advisers. They are senior Tzu Chi volunteers with diversity in the profession including professors, doctors, lawyers, civil servants, and businessmen. They play the roles of students' confidants and accompany students throughout their 4-year undergraduate program.

Key Features about TCU

Tzu Chi University is ranked 67th in the world, 10th in Asia, and 1st in Taiwan by Times Higher University Impact Ranking in 2019. It's also ranked as 5th amongst all universities with medical programs in Taiwan. In 2020, TCU collaborated with Academia Sinica and Taipei Tzu Chi Hospital successfully developed COVID-19 antibody test kits.

Tzu Chi has more than 70 sister schools/ universities in North America, Europe, and Asia for service learning, exchange and dual-degree programs with strong connections with 46 Tzu Chi Foundation chapter offices globally, and offers a wide variety of scholarships and financial aids.

National Kaohsiung University of Science and Technology (NKUST) was established on February 1, 2018, by the merger of three universities: National Kaohsiung University of Applied Sciences, National Kaohsiung First University of Science and Technology, and National Kaohsiung Marine University, becoming the largest technological university in Taiwan.

As a technological university, NKUST has incorporated the strengths of the three former universities – strong connections with industries, innovation and entrepreneurship, and ocean technology – into the new university and realized synergies through integrating complementary resources and functions.

NKUST not only incorporates the strengths of the three universities—strong connections with industries, innovation and entrepreneurship, and ocean technologies—into the new university, but it also has great advantages in the aspects of vast campuses, strong human resources, complementary resources, and diverse cultural assets, which makes a lively and vigorous academic community and learning environment for students. Also, NKUST hopes to integrate all the resources and to cultivate more excellent technological professionals, and lead the business and industry development in southern Taiwan.

》》》 Key Features About NKUST

- Strong connection with industries--NKUST has established long-term collaborations with regional industries in the engineering fields for more than 50 years.
- Innovation and entrepreneurship--NKUST is the very first entrepreneurial university in Taiwan. Combining academic and administrative resources, the university has created an ecosystem for innovation and entrepreneurship, fostered innovative and creative culture on campus and developed entrepreneurial features.
- Ocean technology--NKUST puts a strong emphasis on developing the ocean industries and nurturing marine professionals. With the achievements in industry-academic cooperation and R&D in ocean technology, the university serves as an important base for talents of the ocean industries.

Southern Taiwan University of Science and Technology

Apply

Scholarships

Southern Taiwan University of Science and Technology (STUST) was founded in 1969, in Tainan City, Taiwan. Our university has four colleges, College of Business, College of Engineering, College of Humanities and Social Science and College of Digital Design.

The mission of STUST is to pursue academic excellence in both technological fields and in the humanities. Over the past 50 years, with the board of directors and tens of thousands of teachers and students working together, STUST has grown and developed. We are now undoubtedly the leader in terms of private universities of technology in Taiwan. With almost 18,000 students, the campus has a vibrant community of learners that enjoys state-of-the-art facilities.

» » » Key Features About STUST

STUST has outstanding achievement, all programs in College of Business are AACSB accredited. In addition, all programs in College of Engineering are IEET accredited, signatory of the Washington Accord.

Our teaching features include curriculum that meets the demand of future careers. We invite professionals from the industries to co-teach and provide insights to the students, strengthening their practical ability in specialized fields, and providing internship opportunities. Subsequently, R&D achievements are integrated into teaching and instructions towards “Creativity, Innovation and Entrepreneurship” are strongly encouraged. Moreover, STUST emphasizes on industry-academia cooperation which is a crucial indicator and distinctive feature in technical and vocational education.

Yuan Ze University

Apply

Scholarships

Yuan Ze University is a private non-profit institution with strong industrial linkage, since it was founded by the Far Eastern Group, a big conglomerate of over 250 companies across 10 industries. YZU was the first university to win the National Quality Award for its educational quality in 2003, and it was chosen by the Ministry of Education in 2006 as one of the 12 top universities in Taiwan. As the first bilingual university in Taiwan, YZU offers English programs in all 5 colleges.

»»» Key Features About YZU

Currently Yuan Ze has five colleges including the Colleges of Engineering, Informatics, Management, Humanities and Social Sciences, and Electrical and Communications Engineering. There are over 9,000 students with a 2:1 ratio between undergraduate and graduate students on campus. Aimed at housing key research centers in Taiwan, our Fuel Cell Center and Communications Research Centers have integrated all resources and recruited talents in all engineering-related departments at Yuan Ze through support from the Top Universities Project. With the success of these two centres, Yuan Ze also places heavy focus on the promotion of overall teaching and research capacity. The College of Management has established the first EMBA program in Taiwan and all the courses in the Graduate School of Management are conducted in English to further connect our students to the international marketplace. The College of Informatics is the first college in Taiwan to adopt information as the core for its teaching and research. It emphasizes on practical experience with the integration between technology and social studies. The College of Humanities and Social Sciences is working closely with our College of General Studies to promote teaching and research in humanities, general education, and ethics.

National Pingtung University of Science and Technology

National Pingtung University of Science and Technology

Apply

Scholarships

Established in 1924 as the Kaohsiung State Pingtung Extension School of Agriculture, the first stage of this 90 year enterprise was focused on developing tropical agriculture research and cultivating professionals in science and technology. Situated in Taiwan's only tropical agriculture production area, just beneath the Tropic of Cancer, tropical agriculture industry, with all its unique and diversified attributes, has been a pillar upon which the university's international reputation has been established, and has helped National Pingtung University of Science and Technology (NPUST) to become a large-scale tropical agriculture research institution with great potential for future development. Nestled at the foot of Dawu Mountain, NPUST's 300 hectare campus, with vast green pastures and stretches of lush trees, has a distinct beauty that changes with each of the four seasons and an elegance that has earned it the reputation of "National Park University." NPUST currently is home to seven colleges, including the colleges of Agriculture, Engineering, Management, Humanities and Social Science, Veterinary Medicine, International, and Professionals College.

» » » Key Features About NPUST

Since 2014, for eight consecutive years, NPUST was the highest ranking university in Taiwan in the GreenMetric World University competition. In 2021, NPUST also ranked 4th in all of Asia in the same competition, demonstrating the fact that the university is internationally recognized for its pursuits in sustainable development, both with respect to its campus facilities and the cultivation of its talent. At the THE Impact Rankings 2022, NPUST was the first amongst all other universities of science and technology in Taiwan. Also the first in Taiwan, Department of Food Science obtains USA Institute of Food Technologists (IFT) Accreditation.

» » » Popular Programs

- (1) The only department in Taiwan to offer full degree programs in English, Department of Tropical Agriculture and International Cooperation: develops and integrates animal and plant production, management and applications, smart agricultural production technology, and promotes international cooperation.

INTEGRATION

>>> 4 Departments, 2 Institutes, and 1 Interdisciplinary Program, and Degree Programs

Chemical Engineering (CHE). Power Mechanical Engineering (PME).
Materials Science (MSE). Industrial Engineering & Engineering Management (IEEM).

Nano-Engineering & Micro-System (NEMS). Biomedical Engineering (BME).

Interdisciplinary Program of Engineering (IPE).

>>> Interdisciplinary Education and Training of BS, MS and PhD students

First Interdisciplinary program of Engineering (IPE) in Taiwan.
The students receive training and take courses from different disciplines.

>>> Industrial Liaison Program and Research Centers (at college level)

The Enterprise Logistics and E-Business Center. The Quality Research Center.
The Advanced Packaging Research Center. Advanced Opto-Mechatronic Technologies Center.
FUSHENG and NTHU CoE Industry-Academic Research Center.

>>> 127 Faculty Members, 3363 Students, and 40% Courses offered in English

INDUSTRY-UNINVESTITY COLLABORATION

>>> Take the Leading Role of the Joint R&D Centers at NTHU

>>> Carry out 405 research projects in 2021, with a number of grand projects with funding more than one million USD

>>> Join hands with the industry

1. Enhance the joint research and technology development by Research Centers and for Industry Technology Graduate Program
2. Cultivate talents to meet the requirement of industrial development
3. Create more opportunities to enrich teaching quality and to enhance research capacity

INTERNATIONALIZATION

>>> 246 international students currently enrolled in the College of Engineering

>>> COEISA, a student association, run by & for the international students in the College of Engineering

>>> 3+1+X Bachelor + Master Programs with UC Berkeley, UC Davis, UC San Diego

>>> Global Engineer Summer Internship

>>> Summer Research Program

QS World University Rankings by Subject 2022

Ranking 51~100 for Chemical Engineering, Power Mechanical Engineering, Materials Science and Engineering, and Industrial Engineering and Engineering Management

What can you expect when you study in Taiwan ?

**A. Excellent
Advisor**

**B. Lifelong
Good Friends**

**C. Great Internship/
Career Opportunities**

**D. Friendly and
Open Society**

SPONSORS

Ministry of Education,
Republic of China (Taiwan)

National Tsing Hua
University
