Your Excellency,

National Institute of Development Administration (NIDA) is very pleased to express our sincerest opportunity by providing scholarships and financial aid program for international students to recognize students who have demonstrated academic excellence and interested in pursuing graduate studies.

NIDA was the first Thailand Graduate School inspired by His Majesty King Bhumibol Adulyadej's vision of advancing Thailand's development through educational institution. Therefore, NIDA exists and stands today as Thailand's leading educational institution concentrating exclusively on graduate studies in fields related to national development administration since our university establishment on April 1, 1966.

Thus, please kindly find this following link for accessing the full NIDA academic package: <https://tinyurl.com/7pa3jb26> and circulate them to your international departments both international and Thai staff, students and international expatriates as well as interested individuals for further details on our graduate programs, training courses and admission requirements. Significantly, Graduate School of Business Administration's programs and Graduate School of Tourism Management's programs have been certified by AACSB and UNWTO. TedQual respectively.
